

HOZAN

F-24 GROUND CORD

Identification of parts and contents

7mm socket Coiled cord

• For wrist strap cord use

Attach the 7mm socket to the 7mm stud of a wristband.
Connect the banana plug or the alligator clip to the ground.

• For ground cord use

Attach the 7mm socket to the 7mm stud of ESD technical elements.
Connect the banana plug or the insulated* alligator clip to the ground. * Cut the insulation cover to the proper length as needed.

There are two related products needed to attach F-24 to the mat.

F-29-1 Stud
F-29-2 Punch kit

⚠ Caution

Do not connect to the power line in spite of 1M Ω current limiting resistor built in the socket for protection of electric shock.

Wristband (e.g., F-152)

ESD rubber mat of stereo microscope (e.g., L-50)
